Introduction to Your Birth Chart Report

What follows is your personal natal chart information, as well as interpretations of the positions and aspects in your chart.

With this report, you'll find out the positions of the planets in your natal chart by sign. The most personal of these are the Sun sign, Moon sign, Mercury sign, Venus sign, and Mars sign. Most people already know their Sun sign.

If your time of birth is known, you will also find out your Ascendant, or rising sign, as well as the positions of the planets in the houses of your chart. Additionally, aspects between the planets are listed and interpreted.

If the birth time is unknown, we cannot know the Ascendant or house positions. The natal chart shown here is an Aries chart in that case. Additionally, you may not know the Moon sign for certain. This is because the Moon changes signs approximately every 2-1/2 days. Less probable but still possible is a change of signs for the other planets and luminaries, depending on the planet itself (for example, the Sun changes signs every 30 days or so).

Each paragraph of interpretation refers to an individual position in your chart. All of these positions and aspects are some of the "parts" that make up a "whole"--you! Some of these interpretations will be contradictory, just as people are contradictory. A person can be timid in love and aggressive in business, for example. As well, we evolve and grow throughout our lives, facing challenges that help us to handle our positions and aspects in a different way. We all have choices, and one of the major benefits of astrology is the chance to understand ourselves so that we can work with our natal charts and improve ourselves. Any computerized report that interprets the individual placements in a natal chart is somewhat disjointed, simply because the different parts that make up the whole are not synthesized.

Some of the interpretations are more detailed than others. You can use this as a starting point and do some further reading about different positions (such as Moon in Libra, Saturn in the 10th house, Moon conjunct Mercury) in your chart by exploring our own site, other astrology sites, and by reading astrology books.

The tables show the technical details of your natal chart, personalized based on your birth data. Below the tables, you'll find your free birth chart interpretive report, and a chart wheel appears at the end of the report.

Planet Positions, Ascendant, & Houses

The following table shows the position of the planets in your chart, by sign and degree. You will also find the sign of your Ascendant and the signs on the cusp of each house in your natal chart only if the birth time is known. The Roman Numerals refer to the houses, where the Ascendant is also the first house and the Midheaven is also the tenth house. For example, if the sign Taurus is next to Mars, you know your Mars is in Taurus. If the sign Libra is next to Venus, you know your Venus is in Libra. If Cancer is next to Ascendant, you have a Cancer Ascendant, and if Leo is next to II, Leo is on your 2nd house.

Natal Chart Report

Birth Chart

This birth chart report shows the positions of the planets for Soyak.

The Sun

The Sun represents vitality, a sense of individuality, and outward-shining creative energy.

The Sun is in Capricorn

Capricorn is a feet-on-the-ground, eye-on-the-prize sign. Those with Sun in Capricorn have a realistic, grounded approach to life that is apparent no matter how dreamy the rest of the birth chart suggests they can be. These people know how to do things--and to get things done.

Some Capricorns naturally turn their backs on what they deem too frivolous. They are very much concerned with what's worthwhile--Capricorns want to do and be something worthwhile. Like their Earth signs relatives, Taurus and Virgo, they need to feel useful and effective in the real world to be satisfied with their lives. But the Capricorn spin on the earth signs is that Capricorn possesses a stronger need for recognition in a worldly sense. They have a strong sense of society and its framework, and they feel most secure when they feel they're doing their part within that framework.

Capricorns like to pare things down, and they take pleasure in the simple things in life. However, many are attracted to status symbols, and these ones will wear the best clothes (tasteful ones!) and drive quietly impressive cars. Comparing Capricorns to their symbol, the goat, brings up some interesting analogies. Solar Capricorns can see into the future and plan for it. They don't mind taking things slowly, but they absolutely aim to get to the top of the mountain in life! They make their way steadily and sure-footedly, and their strength and singleness of purpose are admirable.

Capricorns can sometimes be lonely, although they rarely let it show. They are often a little reserved--even standoffish. This is generally because they value all things practical, and they'll seldom wear their emotions on their sleeves unless they have a particularly flamboyant Moon sign. This is a sign that is surely the most resourceful of the zodiac. To some, Capricorns come across as unimaginative, but they can be enormously creative when it comes to the material world. They are generally very capable people with a strong sense of tradition and responsibility.

Many Capricorns have mastered the art of making people laugh. Their sense of humor can be of the deadpan variety--they're generally excellent at keeping a straight face. They can be bitingly sarcastic, too. Capricorns are not known for taking too many risks in life. They value the beaten track and things "tried and true." This is not to say they are stick-in-the-muds -- they simply value the hard work laid down by those who've been around before them.

Turn to your Capricorn friends for help when you need to really get things done. They'll have practical advice, and they'll help you organize and manage your life a little better. Capricorns are generally good with their "word," dependable, and rather loyal people.

Short description:

He is honest, reserved, circumspect, honorable, and strong-willed. Quietly ambitious within the realms of the possible, he likes and takes on responsibility. He can work in the social domain.

Possible issues: a sometimes bitter and mistrustful mind.

Capricorn with ascendant Cancer

Sun in VII: The Sun is in the seventh house

You take pride in your ability to negotiate and establish harmony in your relationships. It is important to you to have a partner--you could feel incomplete without one. You are motivated to become well-liked and especially sensitive to rejection.

One of the lessons in your life may be to avoid putting harmony and others' opinions of you above your own needs. Use your social skills and seek peaceful relations with others, but try not to over-identify with your partnerships and how others receive you. You may marry someone with a strong personality.

Key points:

He strives for balance and harmony. He is quick to see unfairness and inequity. A master of the art of giving and receiving, he is a true partner.

522 Conjunction between the Sun and Venus

You are charming and easygoing. Social relationships are extremely important to you. Being personally popular can be important to you, or you want to come across in a pleasant way and to be liked and appreciated. Sometimes, vanity is part of the package.

Venus is a peace-making, harmony-loving planet, and those with Sun conjunct Venus do their best to seek peace and harmony. You are diplomatic and a veritable expert at smoothing over (and sometimes glossing over) problems. You are openhanded with others, tolerant, and accepting.

When expressed negatively, you can be superficial, two-faced, or very much tied up with appearances. You might be too agreeable, too pleasant (at the expense of honesty), and downright lazy at times.

However, this position graces you with lovely qualities. You have a fine eye for style and enjoy pleasing surroundings. You generally dress well and enjoy a certain amount of luxury. You are gracious, romantic, and sometimes romantically impulsive. Often relying on the power of attraction to bring people to you, you're not into aggressively pursuing social or love

interests. There can be some vanity involved here--you are most attracted to people who express interest in you or who respond well to your charms! You are not the type of person who overtly pursues people who appear indifferent to you.

You are not competitive in the aggressive sense of the word, and you are not someone who loves a good chase. Instead, you work your charms and draw people to you. Your ability to attract others (Venus) is very much tied up with your ego (Sun). Because Venus rules all things feminine, all those with this aspect tend to be quite attractive.

Key traits: He is warm, charming, gracious, polite, and likable. Sometimes, he can be self-indulgent.

74 Sextile between the Sun and Mars

You are enterprising and have powerful energy stores you can draw upon when needed. You respond to problems or challenges with a spirited and enthusiastic confidence that is admirable. You are naturally competitive, and this trait is generally well-received by others simply because it is unforced, unaffected, and sincere.

You truly believe in fair play, and you seem to be in love with life. When expressing competitiveness and courage, it's easy for others to accept these traits as positive rather than being rubbed the wrong way.

You have good physical vitality. Although competitive, you are not naturally combative. You may enjoy sports or games that are competitive but not violent. Breaking the rules of a competitive game is particularly upsetting to you. You can control your desires, aggressions, and instincts more than most. You know how to be fair and expect others to be fair! As such, sneaky behaviors, uncontrolled impulses, violence, and rage are offensive to you.

Key traits: He is natural and energetic, often working on instincts, with strong convictions and willpower, and quite driven.

55 Conjunction between the Sun and Saturn

It's natural for you to accept responsibilities, lead a rather ordered life, and apply caution in your financial and business dealings. This aspect helps stabilize and ground you, giving you a realistic side. You rarely jump to conclusions or take uneducated risks. You have a certain amount of patience and enough self-discipline to slowly but surely achieve what you set out to do.

Although somewhat undemonstrative, you are generally loyal and responsible to those you care about. You take your time in many of your endeavors and generally use a step-by-step approach to most projects--but you steadily reach your goals.

This aspect gives you some seriousness. You are naturally trustworthy, and you have little patience for people who don't show respect for others, who take foolish risks, and who lead chaotic lives.

Key traits: He is grounded, reasonable, level-headed, fundamentally responsible, and deliberate. He benefits from a solid and realistic sense of self and understanding of his capabilities.

154 Sextile between the Sun and Neptune

There is an unmistakably dreamy, inspired, and sensitive side to you. A marked appreciation for music and the arts is present. The connection of Neptune with the Sun, which represents the ego and the will, certainly softens some of the hard edges that might be found elsewhere in the chart, adding a sensitive and spiritual dimension to your personality.

You are naturally compassionate. It is so completely natural for you to accept that there is more to the world than what's before your eyes that you absent-mindedly presume everyone must be spiritually inclined. Of course, you come to realize that this is not the case at some early point in your life.

Your attraction to spirituality and metaphysical subjects is usually marked. This aspect favors writers, artists, and musicians. You are sensitive to those suffering, although you are not usually taken advantage of.

You are humanitarian and may have a special connection with animals. If other aspects and positions in the chart support it, you are not one to dominate others or assert yourself to the point of brashness. You have a fertile imagination, are full of inspiration, and are very emotional - all qualities you could use successfully on the professional level.

Key traits: He is naturally and genuinely empathetic, compassionate, and intuitive. His observations and insights are unique and fascinating, making him an original and helpful guide. He has a gentle nature that picks up on subtle cues from his environment.

6 Conjunction between the Sun and Pluto

You have much sexual vitality and passion. It's easy and natural for you to find a passion, pursue it, and focus on a goal.

Not much scares you! You enjoy and embrace growth, especially of the psychological kind. You love a good mystery, and you are adept at solving it.

You readily assign meaning to what others might consider "ordinary" events. You look for symbols and read between the lines in almost any situation.

Your physical vitality is generally strong, and your body is usually able to heal quickly. You are not afraid to get your hands dirty, and you are usually quick to help others--not only with mundane tasks but also on a spiritual or psychological level.

Your insight is sharp and sometimes awe-inspiring. You are perceptive and not easily rattled or surprised in life. You are not a do-gooder, nor are you a law-breaker. However, you are not afraid of the "dark side" of human nature, and you will bend the rules from time to time if you feel the need to do so.

You take particular pleasure in growth and life's lessons. You are not fond of superficiality and are generally the first to spot pretense of any kind. You are passionate and can be intense. You have a hunger to experience more than just an "ordinary" life, and you can be quite ambitious. Some people with this aspect are perfectionists, demanding much from themselves and reasonable effort and honesty from others.

Key traits: He is creative, ambitious, and ready to transform or improve matters. He benefits from his willingness to improve, reform, and change. He has determination and willpower and can readily turn around a situation.

263 Conjunction between the Sun and Lilith

He is fundamentally comfortable with the darker side of his nature. A student of human nature, he is observant, incisive, unique, unusual, and fascinating.

-18 Opposition between the Sun and Ascendant

He may face conflicts in life due to a projection of character that does not match what is on the inside. Misrepresentation of the self can be frequent. He must strive to understand how others perceive him and work on presenting a more accurate persona to the world, or he will rub people the wrong way or feel unrecognized and misunderstood.

The Moon

The Moon represents the emotional responses, unconscious pre-destination, and the self-image. The Moon represents the emotions, and the Moon sign shows how a person expresses themselves when at home, at ease, and comfortable.

The Moon is in Gemini

People with Moon in Gemini are always interesting people--they have a finger in every pie, are curious to a fault, and are generally well-informed. Nervousness and worry are common traits with this lunar position. Lunar Geminis are usually pleasant, witty, and charming people. At home and with family, however, they can be moody and irritable at times. An underlying restlessness is common, and many Lunar Geminis need more stimulation than

others. They usually read a lot, talk a lot, and think a lot with this airy, mutable position of the Moon.

Their homes are often a perpetual work-in-progress. They generally dislike housework but are big on home improvement. Re-organizing their homes in little--and sometimes big--ways seems to keep them happy, as Lunar Geminis are easily bored by both routine and constancy. Often, this is a reflection of their inner world--"the grass is always greener..." applies here. Inwardly, Lunar Geminis can be unsettled. Moon in Gemini people are often more adept at handling the intellectual needs of their loved ones than emotional ones. They prefer to sort out others' complicated emotions mentally or verbally.

In their families, Lunar Geminis often take on the role of organizing get-togethers. They are at their best when they have plenty of things to do beyond the routine. Moon in Gemini people almost always have a way with words. They are clever and witty, and more often than not, can be found chatting with others. They are sociable and friendly, and feel comfortable in crowds. Some pay too much attention to what everyone else is doing and lose touch with what they really want to do. Generally, Lunar Geminis have a million and one projects going. They are impressionable folk, and their imagination is boundless.

Their openness to new ideas is admirable, although decisiveness and persistence take a blow as a result. Still, versatility and adaptability are some of the stronger traits of this position of the Moon. When irritable, they can easily become snappy. Their moodiness is complicated--this is not the same kind of moodiness you'll find with water sign moons, for example. Usually, difficult behavior stems from inner restlessness. Lunar Geminis want to do it all, and have trouble sticking to any one project.

When problems arise, the first instinct of Moon in Gemini natives is to talk things out. Their tendency to analyze can give them the appearance of emotional detachment. In fact, Lunar Geminis may be especially comfortable talking about their feelings, but feeling their own feelings doesn't come as easily! Those who don't take time out to emote and understand their own needs may end up baffling others. Feeling misunderstood is common for Moon in Gemini natives. The only real solution to the problem is learning to get in touch with their feelings.

Short description:

Sharp intellect. He likes literature and will adapt to all situations and social groups. Work in contact with the public, literary occupations, travel.

Potential issues: lack of follow-up of ideas, indecision, may go back on decisions.

Moon in XII: The Moon is in the twelfth house

Curious and inquisitive nature, although more of an observer than a person who asks many

questions. He likes peace and quiet, emotional space and solitude.

This position of the Moon indicates an emotional attachment and sensitivity to all that is ethereal, groundless, and eternal. As sensitive as you are, you often have delayed reactions to your own emotional experiences. You need frequent moments of solitude to recharge yourself emotionally, and this need, while strong, can also lead to feelings of isolation and of being misunderstood.

While you are a perceptive person, you are often either flooded with emotions that are hard to define or completely out of touch with what you are feeling. Either extreme keeps you from truly discovering your emotional needs.

Negative expressions of this position are avoidance of responsibility, using hypersensitivity as an excuse to oneself (and perhaps to others) for not participating, or emotional immaturity. You are sympathetic to others' suffering but not always emotionally available to help.

Given distinct times to yourself and for emotional renewal, you are at your compassionate, wise, and intriguing best.

Mercury

Mercury represents communication, Cartesian and logical spirit.

Mercury is in Sagittarius

Enthusiastic, humorous, and sometimes moralistic. He has strong opinions, and will often be eager to share them! Democrat, philosopher, tolerant, respectful of laws. Interested in foreign places and learning more languages. Believes that everything teaches you something.

Mercury in VI: Mercury is in the sixth house

Medical profession. Serviceable and generous nature. May meet their soul sister at work, or (if not) through family contacts.

You are a person who thinks of all the details that others forget. Your mind is almost always turned "on" which can make you a little nervous. You are excellent at sorting things out, organizing, and making lists and associations. With your attention to the details and the mechanics, however, you might miss the bigger point! You are exceptionally helpful and others can count on you for making arrangements, researching, and offering advice. You truly love to feel useful. You might have some traits of a hypochondriac, as you notice all of the little aches and pains that others might overlook. Nervous tension could be at the root of many of your health complaints. Many of you are good at crafts, mechanics, or anything that requires good manual dexterity.

0 Trine between Mercury - Uranus

He is perspicacious, ingenious. He binds intelligence and originality together with genius. He likes literature, especially fiction. He is spontaneous in his friendships and knows how to turn situations around positively.

-22 Square between Mercury - Neptune

He misjudges, but very imaginative. He lets things happen, and is happy to stay in his dreamworld. Confronted by reality, he is hesitant, anxious about being tested and can fall back into his imaginary world.

Venus

Venus represents an interest in emotions and values, exchange, and sharing with others.

Venus is in Capricorn

Venus in Capricorn people will try to win your heart by displaying self-control, presence of mind, and responsible behavior. These lovers want you to know they are goal-oriented, witty, savvy, and controlled. Nobody can get the best of them. They want you to see just how competent they are. They like some measure of predictability in their relationships as they are cautious in love.

Venus in Capricorn people project an aura of competency and their loner-like behavior can be attractive, in a cool way. They don't go gaa-gaa over love, or at least they don't express as much. Their lovers may complain that Venus in Capricorns are a little too practical and deliberate. Certainly, they can come across as lacking in warmth and spontaneity. Truth is, they can be rather romantic souls who yearn for a partner to share their lives with. Others' image of their relationship matters to them. They are conservative and willing to commit. Venus in Capricorn people are attracted to serious, goal-oriented lovers. They are a little shy in matters of the heart, but they don't want you to know it. If you like knowing where your relationship is headed, you'll be mighty pleased with Venus in Capricorn. These people plan ahead in love, and, unlike Venus in Pisces, they will let you know exactly where they (and the relationship) are headed. Pleasing Venus in Capricorn involves showing them you are practical and realistic. They want to impress you with the things they do. Appreciate their "saving for a rainy day" attitude, and be aware that they want to show you off in a quiet way.

Venus in VII: Venus is in the seventh house

His fate can depend a lot on partnership. May connect for love, children, happy emotional life.

Harmony is most important to you, so it is unlikely you will attempt to dominate a lover. You are a peacemaker, sometimes going to great lengths to achieve a balanced, harmonious relationship. Be careful not to bend over backwards just to keep the peace--you may be taken advantage of. Your marriage partner may be especially attractive, charming, or well off. You are extremely attractive, agreeable, and charming, drawing others to you magnetically. You need an unusual amount of contact and exchange with a partner, and might find that you feel completely lost without one. Some of you might quickly enter into partnerships, perhaps too quickly and neither equipped nor prepared for the responsibilities that a long-term relationship demands. In some cases, there can be a shallow or materialistic interest in partners. Your hips and lower back may be special erogenous zones for you, or they may be especially attractive body parts.

298 Conjunction between Venus - Saturn

He has a good grasp of reality and of duty. He is thrifty, reserved and usually not given to showing off. He likes truth and justice. In love, his sentiments are sincere and deep, he never plays false. He is, of course, faithful in love and friendship. He might love a much older person, appreciating that person's intelligence and good sense.

249 Conjunction between Venus - Lilith

This aspect suggests charm, beauty, attracting others by his magnetism. He is intense in love. Feelings are complicated. There can be brooding. However, he is inclined to embrace, accept, and understand the darker side of his nature.

-49 Opposition between Venus - Ascendant

He may go to excess with his pleasures, frequents doubtful company, may come across differently than expected. He is very spendthrift, but spreads his money around his circle. His friends may be more self-interested than sincere.

Mars

Mars represents the desire for action and physical energy.

Mars is in Scorpio

Mars in Scorpio natives love to challenge themselves to do the impossible. They throw themselves into what they decide to do with concentrated energy and awesome willpower. These people make formidable opponents, although often quietly so. They keep their cool and their equilibrium on the surface. Below the surface may be another story, and they are unlikely to easily let you in. Mars in Scorpio has the potential to exploit others--these people see through others, and rely heavily on their gut feelings. The sexual stamina of this position is thought to be the strongest of all the positions of Mars. Sometimes, Mars in Scorpio people are attracted to taboos, and their fantasies may involve blowing the taboos to

smithereens! They enjoy scenarios in which the "other" is giving in to them, wants them completely, and will do absolutely anything for them. And, their sexual appeal is strong enough that they generally do get what they want.

They find it difficult to share their partners, though they will likely never admit this. In stark contrast to Mars in Libra, who is most comfortable with the middle ground, Mars in Scorpio has a black-or-white philosophy of life. These are the people who say, "Just choose!" They really are not comfortable with compromise--what kind of satisfaction could you possibly get from compromise? Real living, to Mars in Scorpio, is all about accepting challenges and making changes. These people constantly test themselves, and, often, others. They make all kinds of rules and goals, just for the personal satisfaction that comes from achieving or mastering them.
