

NuSoyish Dictionary, 3rd Edition

Grammatical rules:

Put a tense marker before a verb to set the tense.

buf- ➡ past tense

nuw- ➡ present tense

fujt- ➡ future tense

Add (-itte) onto the end of a noun to make it little.

Add (-igge) onto the end of a noun to make it big.

Vowels:

a /a/, e /e/, i /i/, o /o/, u /u/

Umlaut Vowels:

ä /æ/, ö /ø/, ü /y/

Umlaut Rules:

Whenever a historical /i/ or /j/ would follow, the root vowel shifts:

Base ➡ Umlaut

a ➡ ä

o ➡ ö

u ➡ ü

Diphthongs:

ai /aj/, ei /ej/, oi /oj/, au /au/, äu /æu/ (umlauted diphthong)

Diminutives (-itte) trigger umlaut:

a ➡ ä before -itte

o ➡ ö before -itte

u ➡ ü before -itte

Example: xon ("house") ➡ xönitte ("little house")

Augmentative (-igge) doesn't trigger umlaut:

Because the -igge suffix starts with a back vowel and consonant, it blocks fronting.

Example: xon ➡ xonigge ("big house", no umlaut)

Consonants:

b /b/, as in English

d /d/

f /f/

g /g/, always hard (no /dʒ/)

h /h/

j /j/, "yes"(Germanic j-sound)

k /k/

l /l/

m /m/

n /n/

p /p/

r /r/, tap /r/ or trill /r/

s /s/, always /s/, never /z/

t /t/

v /v/

w /w/

x /x/

z /z/

Pronouns and other stuff list:

I ➡ etele (Add -er to make possessives.)

me ➡ mi

he ➡ xhe

what ➡ marge/vot

is ➡ juti

other ➡ odu
