In order to Find info on any of any of these accounts email addresses and discords are key what I would highly recommend is to use this website <https://start.me/p/L1rEYQ/osint4all>
There are literally hundreds probably thousands of open source intelligence tools that you can use so every time you seen email address a discord account or any videos that might connect them to an identity use any of the tools in the website

These are the list of channels we currently have when it comes to evidence, we already have some leads.

1. this guy known as SimplyHere is a obsessed faggot Who has been commenting under these encrypted videos with potentially illegal material due to him being an absolute dumbass we know the following things about him

1. we have a face photo of him (this was from eight years ago, so he is definitely an adult now he would probably look similar to this use face identifier tool to get results)

2. He might live in North Ogden Utah (this was from eight years ago, so it might've changed) If you find anything similar to his face or in terms of his user name and also has a similar location that might be him.

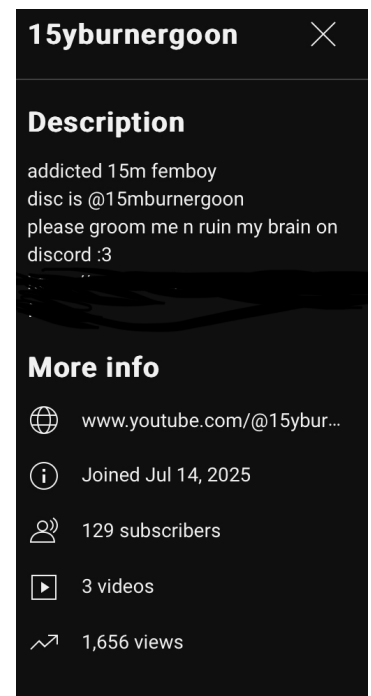

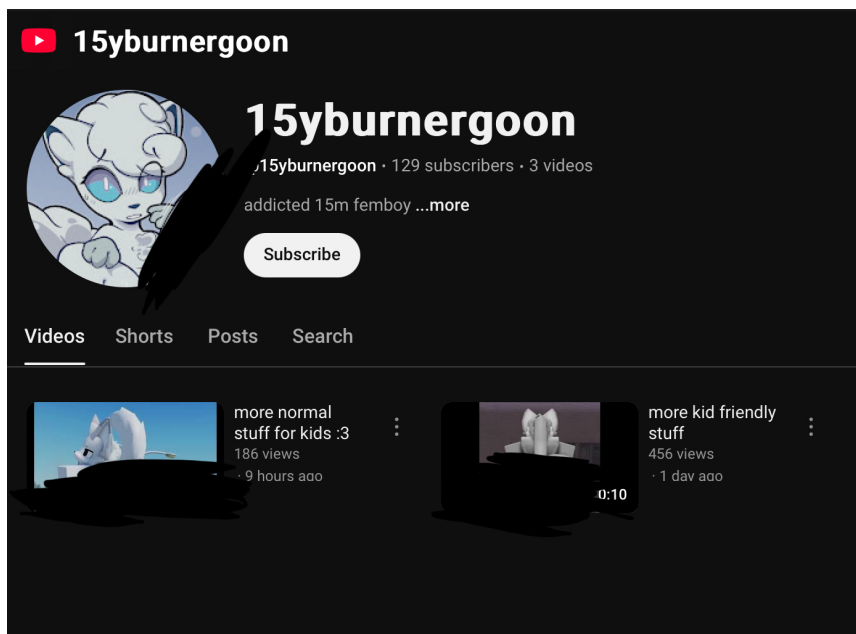

You may be asking yourself, but that was just someone who views it what about someone who has made it or contributed to it.

Well then meet 15yburnergoon who is fucking insane and exactly what the name suggests xir might be connected to all of this

"Please groom me n ruin my brain on discord :3" nigga YOUR 15 ARE YOU FUCKING INSANE!?

xir cord is @15mburnergoon (ask him about what cords xem is in and

who zhey are connected to) don't say anything that would sound soyspeak

if you find any servers chud it up and use this bot if self bots are allowed https://discord.com/oauth2/authorize?client_id=1259510764423745616 If you do find any addresses send some 'za to them and contact everyone they know as well as contacting the media and police That is all that I have for now do what you do best /soy/
